Youth Sports

How it works

- Players are randomly assigned squares.
- Horizontal (better seed) and vertical numbers will be randomly drawn. If teams are the same seed, designated home team will be considered the better seed.
- Winning square is determined by looking at the final digit (i.e. **60** or **101**) of each team's final score and finding the intersecting square.
- Final squares will be posted online at jccstl.com/hoops
- All payouts will be made at conclusion of the tournament.

Fine Print

- Minimum 50 squares must be purchased, otherwise all money will be refunded.
- Squares are non-refundable if minimum is met.
- If more than 100 squares are purchased there will be multiple boards.
- In the event all squares are not sold, 8% of total pot will be distributed evenly amongst all of the winners within each round for Rounds 1 through Elite 8; for Final Four and Championship, 10% will be awarded each round.
- If no winner occurs during a round, that round's prize money will be added to the next round. (i.e., each of the four Elite 8 games lands on an open square, 18% of the pot will be awarded during the Final Four.)
- If the Championship Game lands on an open square, the winner will be randomly selected from all participants.
