

It's important in our Team Ranking process for you to be as honest about your team's competitive level as possible. Given the possibility that some grade levels MAY be combined OR split into multiple tiers, our goal is to provide you with as many games as possible at the appropriate competitive level.

Coach Name _____

Grade Level _____

Ranking	Description	Team Ranking
1	We are probably the worst team in the league. We would be very happy should we win one game.	
2	We are definitely a low tier team. We are not a good basketball team. We could beat a very recreational level team, but that would be it.	
3	We are the bottom of the B division. We would lose most of our games to the average B division teams.	
4	We are towards the bottom of the B division. I know we can't compete with the top of the B division. We'd hold our own with the middle of the B division. We could be most competitive with the bottom of the B division.	
5	We are right in the middle of the B division. We'd probably lose to the top B teams and would win most of the games against the bottom of the B division.	
6	We are definitely a B division team. We couldn't play with any A division teams. We'd beat the bottom of the B division teams but wouldn't blow them out. Every other B team we'd match up well with.	
7	We are a borderline A/B division team. We are too good for the lower level B teams but would match up fine with the average to above average B division teams. On a good day we could compete with the bottom of the A division.	
8	We are an A division team but there's no way we can compete with the top tier teams in the division. We'd be competitive with most teams but are probably too good to be in the B division.	
9	We can play any team. We could play the best teams and be competitive but we could play the lower A division teams and it would be a good game.	
10	My team is probably one of the top teams in our grade. We'll play & beat anyone.
