

It's important in our Team Ranking process for you to be as honest about your team's competitive level as possible. Given the possibility that some grade levels may be combined OR split into multiple tiers, our goal is to provide you with as many games as possible at the appropriate competitive level.

Coach Name _____

Grade Level _____

Ranking	Description	Team Ranking
1	We are probably the worst team in the league. We would be very happy should we win one game.	
2	We are definitely a third tier team. We are not a good basketball team. We could beat a very recreational level team, but that would be it.	
3	We are the bottom of the second tier and could even play some third tier teams, should an age group split into three tiers. We would lose most of our games to the average second tier team.	
4	We are towards the bottom of the second tier. I know we can't compete with the top of the second tier. We'd hold our own with the middle of the second tier. We would be most competitive with the bottom of the second tier.	
5	We are right in the middle of the second tier. We'd probably lose to the top teams in the second tier and would win most of the games against the bottom teams in the second tier.	
6	We are definitely a second tier team. We couldn't play with any top tier teams. We'd beat the bottom of the second tier teams, but wouldn't blow them out. Every other team in the second tier, we'd match up well with.	
7	We are a borderline team, should a division be split into two tiers. We are too good for teams at the lower end of the second tier, but would match up fine with the average to above average teams in the second tier. On a good day we could compete with the lower end of the top tier teams.	
8	We belong in the top tier, but there's no way we can compete with the top teams in this tier. We'd be competitive with most teams but are probably too good to be in the lower tier.	
9	We can play any team. We could play the best teams and be competitive, but we could play the teams in the lower end of the top tier division and it would be a good game.	
10	My team is probably one of the top teams in our age group. We'll play and beat any team.
