Our Mission:

Our mission is to ensure that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community to enhance their overall well-being.

Our Community:

Addressing the impact of cancer extends beyond traditional medical treatment, and healthcare professionals view us as an integral part of cancer care. Our comprehensive array of professionally-led programs and services address the mind, body and spirit – inspiring a sense of hope in everyone who walks through our doors.

Our programs include professionally-led support groups, educational workshops, healthy lifestyle and stress-management classes, social connections, and resource and referral to empower and educate individuals impacted by cancer.

Every month our programming offers more than 60 programs in the areas of support groups, bereavement groups, educational workshops, stress management classes, social events, and individual support sessions.

Cancer Support Community's comprehensive programming is offered for all types of cancer to individuals in various stages of their cancer journey. In addition to helping people with cancer, our programming is also offered to caregivers and family members as well as cancer survivors and bereaved.

Become a Member:

When someone reaches out to CSC for support, the individual takes a brief online survey to assess their specific needs. The individual then meets with a licensed social worker on our staff who matches needs with programs that can help. Once this process is complete, the individual is considered a 'Member' and may access all program offerings free of charge.

Testimonial:

"Cancer Support Community is a place where no one fights alone. It helps those who have had to hear the word 'cancer' find a place where they don't feel alone in that diagnosis. It creates a space for all who are affected – patient, family and caregivers—to share their experiences and find others who understand what they are going through. For me, it made taking one day at a time bearable until better days came along."
